A shape or picture can be moved in various ways.

a) **Slide**

The shape simply moves from one location to another.

b) **Flip**

The shape is turned over from front to back (either horizontally or vertically).

c) **Turn**

The shape is rotated (either a quarter turn, half turn or full turn).
Slides, Flips and Turns

Look at each pair of pictures.
Decide if the second picture has been made by a slide, flip or turn.

To get the 2nd picture we had to _______ the 1st picture.

To get the 2nd picture we had to _______ the 1st picture.

To get the 2nd picture we had to _______ the 1st picture.

To get the 2nd picture we had to _______ the 1st picture.

To get the 2nd picture we had to _______ the 1st picture.

To get the 2nd picture we had to _______ the 1st picture.

To get the 2nd picture we had to _______ the 1st picture.

To get the 2nd picture we had to _______ the 1st picture.
Slides, Flips and Turns

Look at each pair of pictures.

Describe two steps to get from the 1st picture to the 2nd picture.

To get the 2nd picture we had to _______ then ________ the first picture.

To get the 2nd picture we had to _______ then ________ the first picture.

To get the 2nd picture we had to _______ then ________ the first picture.

To get the 2nd picture we had to _______ then ________ the first picture.
